5. Fire Fighting Measures

Flammable Properties: Flash point 66±1℃ (TCC)

- Auto Ignition Temperature: Not available
- Flammable point: Not available

Extinguishing Media: carbon dioxide, regular dry chemical, water spray, alcohol resistant foam

Unsuitable Extinguishing Media: Do not scatter spilled material with high-pressure water streams.

Special Hazards Arising from the Chemical Hazardous Combustion Products: Combustible liquid and vapor.

- oxides of carbon, oxides of nitrogen

Fire Fighting Measures: Move container from fire area if it can be done without risk. Do not scatter spilled material with high-pressure water streams. Cool containers with water spray until well after the fire is out. Stay away from the ends of tanks. Avoid inhalation of material or combustion by-products. For fires in cargo or storage area: Cool containers with water from unmanned hose holder or monitor nozzles until well after fire is out. If this is impossible then take the following precautions: Keep unnecessary people away, isolate hazard area and deny entry. Let the fire burn. Withdraw immediately in case of rising sound from venting safety device or any discoloration of tanks due to fire.
6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

Methods and Materials for Containment and Cleaning Up

- Special Protective Equipment and Precautions for Firefighters:
  - Wear full protective fire fighting gear including self contained breathing apparatus (SCBA) for protection against possible exposure.

- Personal Precautions:
  - Wear personal protective clothing and equipment, see Section 8.
  - Avoid release to the environment.

- Methods and Materials for Containment and Cleaning Up:
  - Eliminate all ignition sources if safe to do so. Stop leak if possible without personal risk. Reduce vapors with water spray.
  - **Small spills**: Absorb with sand or other non-combustible material. Collect spilled material in appropriate container for disposal.
  - **Large spills**: Dike for later disposal. Keep unnecessary people away, isolate hazard area and deny entry. Stay upwind and keep out of low areas.

7. Handling and Storage

Precautions for Safe Handling:

- Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat, sparks, open flame, and hot surfaces. No smoking. Do not breathe vapor or mist. Avoid contact with eyes, skin and clothing. Do not eat, drink, or smoke when using this product. Wear protective gloves and eye/face protection. Wash thoroughly after handling. Avoid release to the environment.

Conditions for Safe Storage, including any Incompatibilities:

- Store and handle in accordance with all current regulations and standards. Store in a well-ventilated place. Keep container tightly closed. Keep cool. Grounding and bonding required. Store locked up. Keep separated from incompatible substances.
